8.18 cgpa	
SBES (Shri Saraswati Bhuvan Education Society) College	2016-06-20 - 2019-03-30
Computer Science	Bachelor of Science (BSc), Science

Projects

Resource Hub

Built front-end features with React JS, Redux toolkit, Sass, useFormik, and Bootstrap, and integrated role-based access control (RBAC) using Git and GitHub for version control.

Created a centralized repository for business information with user role-based permissions, enhancing resource management and access control.

City Guide

Developed front-end features using Bootstrap, React JS, and Redux toolkit Developed REST APIs using Django and Express Used Git and GitHub for version control

Created a user-friendly travel platform, offering essential details on top hotels, tourist spots, and the locations of hospitals, petrol stations, and police stations, simplifying trip planning for travelers.

Notes

The "Notes" project was a web application aimed at learning React with TypeScript and Redux Toolkit for state management. It provided hands-on experience in modern web development.

The "Notes" project was an educational web application for learning React, TypeScript, and Redux Toolkit, offering practical experience in contemporary web development.

Coupons App

Coupons App for Internal use of company

Created the "Coupons App" to simplify employee meal coupon management and automate monthly billing. As the lead backend developer, utilized Express.js and MongoDB to build the system and essential APIs. Automated the billing process, introduced a user-friendly meal booking system, and facilitated expense tracking for employees.
